Competitive Dance Teams

Competitive Teams are for students that are interested in studying and participating in performance dance and regional dance competitions.

Students will perform at various events throughout the year including in and around our community. Teams utilize several forms of dance for their routines and learn multiple routines throughout the year.

Because we believe competition offers benefits such as performance experience and positive feedback, we make an effort to participate.

Our main focus is teaching dance.

Additional fees are required for performance costumes, team warm ups, entry fees, travel expenses and event admission. All Team participants are required to attend competition and developmental workshops held throughout the year.
